“ Mr. A was the best teacher I ever had. All of us loved him so much that we had him give our senior speech. We used to love teasing him, and he would always say "don't make me get my can opener!" I looked forward to physics everyday, not because of the subject matter but because his awesome sense of humor. I never had so much fun in a classroom. I am very sad to hear that he has passed away. I graduated in 1999 and the memories of his spirit are still strong today. What a guy!!! Thanks for everything Mr. A!

“ Joe was a wonderful colleague. Although I was not in his department, he reached out to teachers throughout the building. He was a very interesting person, always had something to share. I enjoyed talking to him on many occasions and have fond memories of him as a fellow teacher.
My sympathy to his family on their loss,
Pat Sacca

“ I worked with Joe at Columbia for over 10 years. Although I was not in the science department, we had some nice conversations. I still have a very elementary physics book he gave me when I confessed that I had never taken physics in high school. He was a true gentleman and such a pleasant individual. Even when he began to have health problems he was always unfailingly pleasant and sincerely interested in everyone. You have my sympathy. Christine Sutphin
