“ Well, I only have one memory that jumps out and says share me. I was the driver and Rob was the gunner. 0 dark 30 we get told we have a mission, they told us to go fast! So, as we're rounding the what had to be the first turn the truck starts to fishtail. I think OK here we go going right of this mountain, but instead I smashed into the side wall. The truck hits it's side and there is Rob, head popped out of the gunners hatch being ground into the side of the mountain. After we stop sliding we all get out, thankfully OK. Robs cevlar was all ripped up. We were scared white then, but we had a good laugh about that later. Rob was always quick to brush of the bad and make others feel better. I will truly miss him dearly.
