“*sad news - I am investigating obituaries because the birthday card I mailed Sandy in August for her 91st birthday was recently returned - no forwarding address. I didn't know.*

*What I did know, though, was a lively Sandy in Monhegan about 25 (?) years ago who had a pink slash of hair cuz of her breast cancer survival, she told us. My daughter and I were there for a few days, and when we were approaching walking to the coast in very gusty weather, Sandy - a fellow guest there - asked if she could walk with us, cuz her George wasn't up to the walk. So we did. And we talked. And we kept in touch via mail all these years, till now.*

*My gratitude for having known Sandy, and consolation to you her children who may read this. Very best, Judy Lippmann; Louisville KY*
